

Jesus Walks on Water

Teachers, please reinforce the dark, vertical lines with sticky tape and cut. Cut the T pieces from the blue page in the back of the book. Thread them through from the other side of the page and glue them together. Glue the picture of Jesus, that can be found on the white page at the back of this book, on to them where they join. Be careful that it doesn't stick to the page. When this is dry put a little glue on each side of the dark vertical lines. Paste the water over the waves on the picture. When the glue is dry, slide Jesus backwards and forwards over the water.

Jonah and The Big Fish

Teachers, please help the children to find the fish on the blue page at the back of the book and paste it over the fish in the picture. Don't forget to have them colour the picture first.

Our Australian Animals

This is a koala.
She has a pouch.
Her baby is carried
in her pouch.
When the baby is
big enough it rides
on its mother's back.

Paste the picture of
the koala here. Add
three nice green leaves
for it to eat.

Paste the picture of
the kangaroo here.

This is a kangaroo.
She has a pouch.
A baby kangaroo is
called a joey.
It rides in the
pouch until it is too
big.

Teachers, help the children to find the koala and the kangaroo on the tan page and paste them in. Find some green leaves and paste them on the branch for the koala to eat. Have the children read aloud the sentences about each animal.
